About Dr. Ben O'Dell, DC

Dr. O'Dell, DC is renowned for owning and operating the Tri-State area's most successful, high-tech chiropractic office, sparing no expense caring for his patients and is the most experienced at laser pain relief. He has treated over 22,000 patients and has used advanced procedures while researching and developing his treatment protocols. He trained next to an early pioneer in the laser therapy industry. While studying in Kansas City he worked along side one of the pilot programs approved by the FDA. He merged non-surgical spinal decompression and **LifeBack™ Laser** protocols and has up to **90% of patients experiencing pain relief after just the first visit!** He also implements logical and safe personalized therapy procedures that can be done at home.

93 years old, "I have improved immensely!"

L.B. from Nauvoo

I had a stroke two years ago...LifeBack Laser™ has helped me immensely with moving again and my body functions. I would recommend anyone suffering with spine, hip, and joint problems. You need to make a commitment to your health.

"I can now pat my own back!" Glenda Lillard

Two months ago I felt miserable! I had a cold with the flu that wouldn't go away, and C.O.P.D. I could not raise my arm up over my head for a year. LifeBack Laser™ started me on the road to feeling better from the inside. They treated my pain and helped me feel looser and stronger. I can now raise my arm up and I can even pat my own back! I am feeling better every day! Thank you!

There was a point that I couldn't talk very good,
I am Art Allen and the pain I had is gone.

"I was told that within a few years that I would be paralyzed and in a wheelchair due to a pinched nerve in my back..."

My name is Art Allen and I am a very satisfied client. I am very happy and pleased to say that he has helped me out a great deal with my physical problems in my back, which has been quite painful for many years. I went to Mayo's pain clinics, many doctors had x-rays, open MRIs to try and solve the excruciating pain in my back. I was told that in a few years that I would be paralyzed and in a wheel chair due to a pinched nerve in my back due to arthritis, etc...

Without giving Dr. O'Dell much information on the

first visit, he gave me a brief summary of what the problem was and what he could do to help improve the quality of my life and the procedures he would use to improve the pain that has existed in my back for many years. But he warned me that this is an ongoing process that must be dealt with on a day-to-day basis. It is not an easy fix for such a serious problem.

I immediately started treatment and at first was skeptical of the outcome, but am happy to say that time and patience has paid off in the long run and it is all due to the knowledge and experience of my doctor who took the time to explain to me in simple language what was going on and how he could help relieve my pain and strengthen my back. And I am quite pleased with the progress and results so far and would recommend Dr. Ben O'Dell to family and friends for their health problems.

There are more options to ones health than the traditional surgery and Western medicines that are usually used to mask the health issues that plague many people.

Dr. O'Dell listens and takes each patient as an individual and really cares about helping get to the real core of the problem regarding health.

Thank you, Dr. O'Dell for your work as a chiropractor and giving me the chance to extend the quality and length of my life!

**Protruding Disc and Sciatica
for 3 Years
Jody Kinney**

LifeBack Laser™ has done wonders for me! I have had a protruding disc and sciatica for three years and this kept me from everyday tasks. I tried numerous treatments and nothing worked for longer than a month. Now that I have been using LifeBack Laser™, I can do things that I have not been able to do in three years and my pain has decreased tremendously! I would HIGHLY recommend it!

Insisting on the LifeBack Laser™ for RAPID, SOOTHING 7 LASTING Relief!

The laser is an innovative, scientifically based, therapeutic modality. This new technology offers advanced pain relief and high-expedited healing times through a process known as photobiostimulation. The **LifeBack Laser™** delivers deep, penetrating, photonic energy to bring about profound physiological changes. ATP (adenosine triphosphate) production is increased at the site of injury. These changes in cellular chemistry are triggered by the **LifeBack Laser™**, making it a truly profound healing modality. It does not require the use of drugs or surgery and there are no known side effects or risks that may occur, with other forms of treatment. During the treatment, the patient feels a deep soothing warmth and pleasant sensation that reassures the patient that the laser is activating cells in the healing process, for true lasting relief.
